¹ HOSPITAL NAME – please write anywhere along the border of the billing sheet . Abbreviations of the hospital name is sufficient (ex/ THC for Trillum).

² PATIENT INFORMATION - insert hospital sticker here. If your hospital uses stamps, ensure the ink is dark enough and legible before faxing to us.

³ REFERRING MD NAME or PROVIDER NUMBER
 Enter the referring physician's name either in full or initial + last name (ex/ Jane Doe or J. Doe). MDBilling.ca will store the referring physician name with the associated provider number. Our system will build a database allowing you in the future to find the referring provider number through the physician's name.

⁴ OTHER PERTINENT INFORMATION

- Dx Code: Diagnosis code. Required for most consults. Three digits.
- Date: Date of service performed. It will override the Default Date.
- Date: Date of service performed

⁵ SERVICE CODES

- Code suffix is not required. Example: Either A190 or A190A can be used.

6

DEFAULT DATE

- Service date to be used for all patient in the sheet
- If service date found in the claim, it will override the default date.

Printing

Bar Codes & Optical Character Recognition (OCR)

You will notice bar codes at the bottom of the sheets:

Ensure these are printed correctly. Faxing or scanning may tilt the image by a few degrees. Our software needs to use the bar codes to identify the billing sheet and calibrate the image for accurate OCR data capture.
